The interest group Angewandte Kryptographie of Gesellschaft für Informatik e.V. hosts

# 30<sup>th</sup> Crypto-Day

28/29.03.2019

Mozilla Crypto Engineering

Mozilla Berlin, Gebäude 3, 4. Obergeschoss, Schlesische Straße 27, 10997 Berlin

**Ambition and Program:** The Crypto-Day aims at providing an opportunity for early-stage researchers in the field of cryptography and IT-security to exchange knowledge and establish networks to universities as well as to industry (e.g. for collaboration across Germany, or to find out about research internships and post-doc positions). Therefore, we invite students, doctoral candidates, and experienced researchers to present their research results or research ideas in the form of 20 minute presentations on this upcoming Crypto-Day.

## Schedule (tentative)

Thu 13:00-18:00 Talks  
Thu 18:00-22:00 Social event  
Fri 09:00-12:00 Talks  
Fri 12:10-12:55 GI Fachgruppentreffen "Angewandte Kryptographie"

**Host:** Mozilla is the not-for-profit behind the popular web browser, Firefox. We believe the Internet is a global public resource, open and accessible to all. We work to ensure it stays open by building products, technologies and programs that put people in control of their online lives, and contribute to a healthier Internet. Privacy and security play an elementary role in this, which is why Mozilla intensively

works on development and implementation of crypto and security standards. The Mozilla Berlin office will open its doors to students, doctoral students as well as experienced researchers in order to talk about their findings, the future of crypto, and integration.

**Topics:** The presented talks shall cover a broad spectrum from the field of cryptography or IT-security. We invite presentations of work-in-progress, contributions, which may be submitted to a conference, or summarize findings from a thesis or dissertation.

Submitted articles corresponding to the presentations will be arranged in a technical report. Therefore, submissions will be quotable publications and will be published on the web page. Observe that this does not forbid the publication of the result at other conferences or journals.

**Attendance:** There are **no participation fees**.

**Submission:** Please submit an abstract of your talk (**one DIN A4 page**). To simplify generation of the technical report, we request you to only use the LaTeX template of the cryptography group and to provide the PDF file additionally to the LaTeX sources.

**Further Information (Program, Venue, LaTeX-template):** <http://www.kryptotag.de/>

**Submission/Registration:** Until **7 March 2019**, by email to [kryptotag@lists.bit.uni-bonn.de](mailto:kryptotag@lists.bit.uni-bonn.de)

**Organisation:** Franziskus Kiefer, Mozilla  
Frederik Armknecht, Universität Mannheim  
Daniel Loebenberger, Fraunhofer AISEC  
Michael Nüsken, b-it, Universität Bonn
